

February 12, 1976

Mr. President, rule changes by Senator DeCamp will be referred to the Rules Committee. There are two separate rule changes.

Mr. President, Senator Burbach asks unanimous consent to print amendments in the Journal to LB 519.

Read title to LB 174. There are committee amendments by Senator Anderson's Miscellaneous Subjects Committee.

PRESIDENT: Senator Anderson.

SENATOR ANDERSON: Mr. President, members of the Legislature. I think all of you have a copy of an amendment that was distributed by Senator Burbach. It was placed on your desks. Since Senator Burbach is striking the original Sections 1 through 4, that the Committee amendments dealt with, and since Senator Burbach's amendment generally deals with the same things that our Committee amendment dealt with, I would simply ask unanimous consent to I don't know what we need to do. I think we should consider Senator Burbach's amendment first. Then if we do, then the Committee amendment should not be considered.

I'd ask unanimous consent to take up Senator Burbach's amendment first.

PRESIDENT: Is there an objection to this request? Seeing none, it's so ordered. Senator Burbach.

CLERK: Now, Mr. President, Senator Burbach offers an amendment which is found on page 638 of the Legislative Journal.

SENATOR BURBACH: Mr. President, members of the Legislature. I did place on your desks, had placed on your desks, the entire bill which is a substitute bill for LB 174 as introduced. By no means do I want to undercut the Committee that heard the bill that had the amendments which do, in part ... or a big part of what the new bill will provide for.

I visited with Senator Anderson just a few moments ago. I didn't visit with him several days ago like I should have, I'm sorry. I visited with him a few moments ago and he indicated to me that his Committee amendments are very similar to what we have here now ... a few changes.

For the purpose of administration of the Commission of Indian Affairs during the interim between its regularly quarterly meetings there is hereby established an Executive Board. So that an Executive Board, out of the 15 member Commission, could do a certain amount of business and it spells out who shall be on that Executive Board. The Executive Board of the Commission of Indian Affairs consisting of the Chairman of the Commission, two members representing the reservations, one member representing the urban areas and one member who represents the Western Nebraska area, or is the member-at-large, either one of those two instances. Then the Executive Board shall have the authority with the \$2,000 ceiling. The Commission shall
